Amk

Trichy AMK Steel Solutions has grown to make a significant place for itself in the South Indian Steel Industry. The glorious journey so far has spanned over 49 years of building trusted relationships, reputable clientele and producing world-class steel solutions. We deal in complete building solutions including TMT, sheets, pipes, roofing solutions, cement and paints. The growing distributorships include various reputed brands like APL Apollo, ISW Colouron+ and MKS Metal making. AMK is a trusted leader in the steel market today.

Distributor's of

Apl Apollo

For over three decades, APL Apollo has gone from strength to strength to lead the charge in revolutionizing the Structural Steel Tubes manufacturing industry; pioneering and persisting in its aspirations to provide sustainable alternatives to the industry – domestic and globally. From featuring in many firsts to vigorously reforming technological processes, APL Apollo has proven its market acumen.

JSW

We at ISW thoroughly acknowledge the impact of our businesses on both the local environments in which we operate and the wider, global environment. We have strategically approached this crucial problem at hand. We have developed a comprehensive plan with parameters that help our businesses in resolving the negative impact of operations on people, communities and overall environment. Additionally, the plan encompasses sustainable solutions for the businesses that betters their performance without compromising on quality.

In some ways, while many may regard JSW as part of 'the problem', we think of ourselves as part of 'the solution' as well.

Amman TMT

AMMAN Steel Group is engaged in the business of manufacturing of Bars and Rods of various sizes. The rolled products are Steel Rods (TMT/ CRS / RINGS) from 6mm to 25mm. These rolled products, namely 6, 8, 10, 12, 16, 20 and 25mm rods are extensively used in building and other civil construction works. AMMAN-TRY Steel has always been a leader in the Steel industry, introducing new concepts in steel and started to produce CRS Bars in 2007 after that AMMAN-TRY emerged as the major steel producer in Tamilnadu.
